The Problem

Stress and noise in busy environments and ever growing hectic lifestyle

Airports, shopping centres, companies and busy areas are stressful.

Studies show **stress as the #1 mental health issue** globally (World Health Organization, Lancet Psychiatry, American Medical Association).

There's a **growing need for spaces that provide moments of calm and disconnection** from stress and noise (Kaplan study - Attention Restoration Theory-, Sage Journal Environment & Behaviour - Study on quiet environment, Health & Place - Tranquil soundscape study) .

Studies demonstrate that at least **10 minutes a day of calm and relaxation** reduces stress level and improves mental health and body well-being (American Medical Association, Frontiers in Psychology study, UNiversity of Utah).

The Solution

Our Zen Space Cabin Spa

- 1 Fully automated and soundproof** cabin Spa with a futuristic and relaxing design.
- 2 Shiatsu massage**, sound, image, and aroma therapy inside
- 3 Proven success with over 800 satisfied customers** in Milan up to date (growing daily)
- 3 Patented worldwide** for competitive advantage and IP

Zen Space Cabins Features

Specific benefits for Airports

1. The First Impression:

Airports are often the first point of contact for travellers in a new city or country. Having our Zen Space cabins at your airport show the travellers you care about their well-being, will give a **positive initial experience to the traveller** and sets the tone for the entire trip, leaving a lasting impression. Also should your customer have a bad experience at security, long queues at check-in, flight disruptions, by offering them a place to relax with our unique Zen Space cabins and disconnect from stress will change this bad experience around.

2. Stress Reduction:

Traveling can be inherently stressful, and airports are no exception. The sheer volume of people, security protocols, and time constraints can make passengers feel **overwhelmed**.

By focusing on passenger experience and offering our Zen Space cabins, **your airport offers a unique and unparalleled calm zone, alleviating the stress to the traveller and impacting enormously their travelling experience, making it a positive and unforgettable one.**

3. Positive Economic Impact:

Passenger satisfaction directly impacts an airport's reputation and, consequently, its economic success. Happy travellers are more likely to choose an airport for future travel and recommend it to others. By focusing on providing an exceptional passenger experience with our Zen Space Cabins, airports can attract more airlines and secure additional routes, increasing connectivity and tourism opportunities. **Furthermore, satisfied passengers are more likely to spend money on retail, dining, and other services, contributing to the local economy.**

4. Branding and Differentiation:

In an increasingly **competitive aviation industry**, airports must **differentiate** themselves to attract airlines and passengers. An **exceptional passenger experience** can serve as a unique selling point, distinguishing an airport from its competitors. By offering our Zen Space cabins, your airport can create a **brand identity** that stands out. This branding not only attracts airlines but also positions the airport as a **destination itself**, fostering a sense of pride and loyalty among passengers.

5. Get on board one of the biggest Global Economy Mega trends:

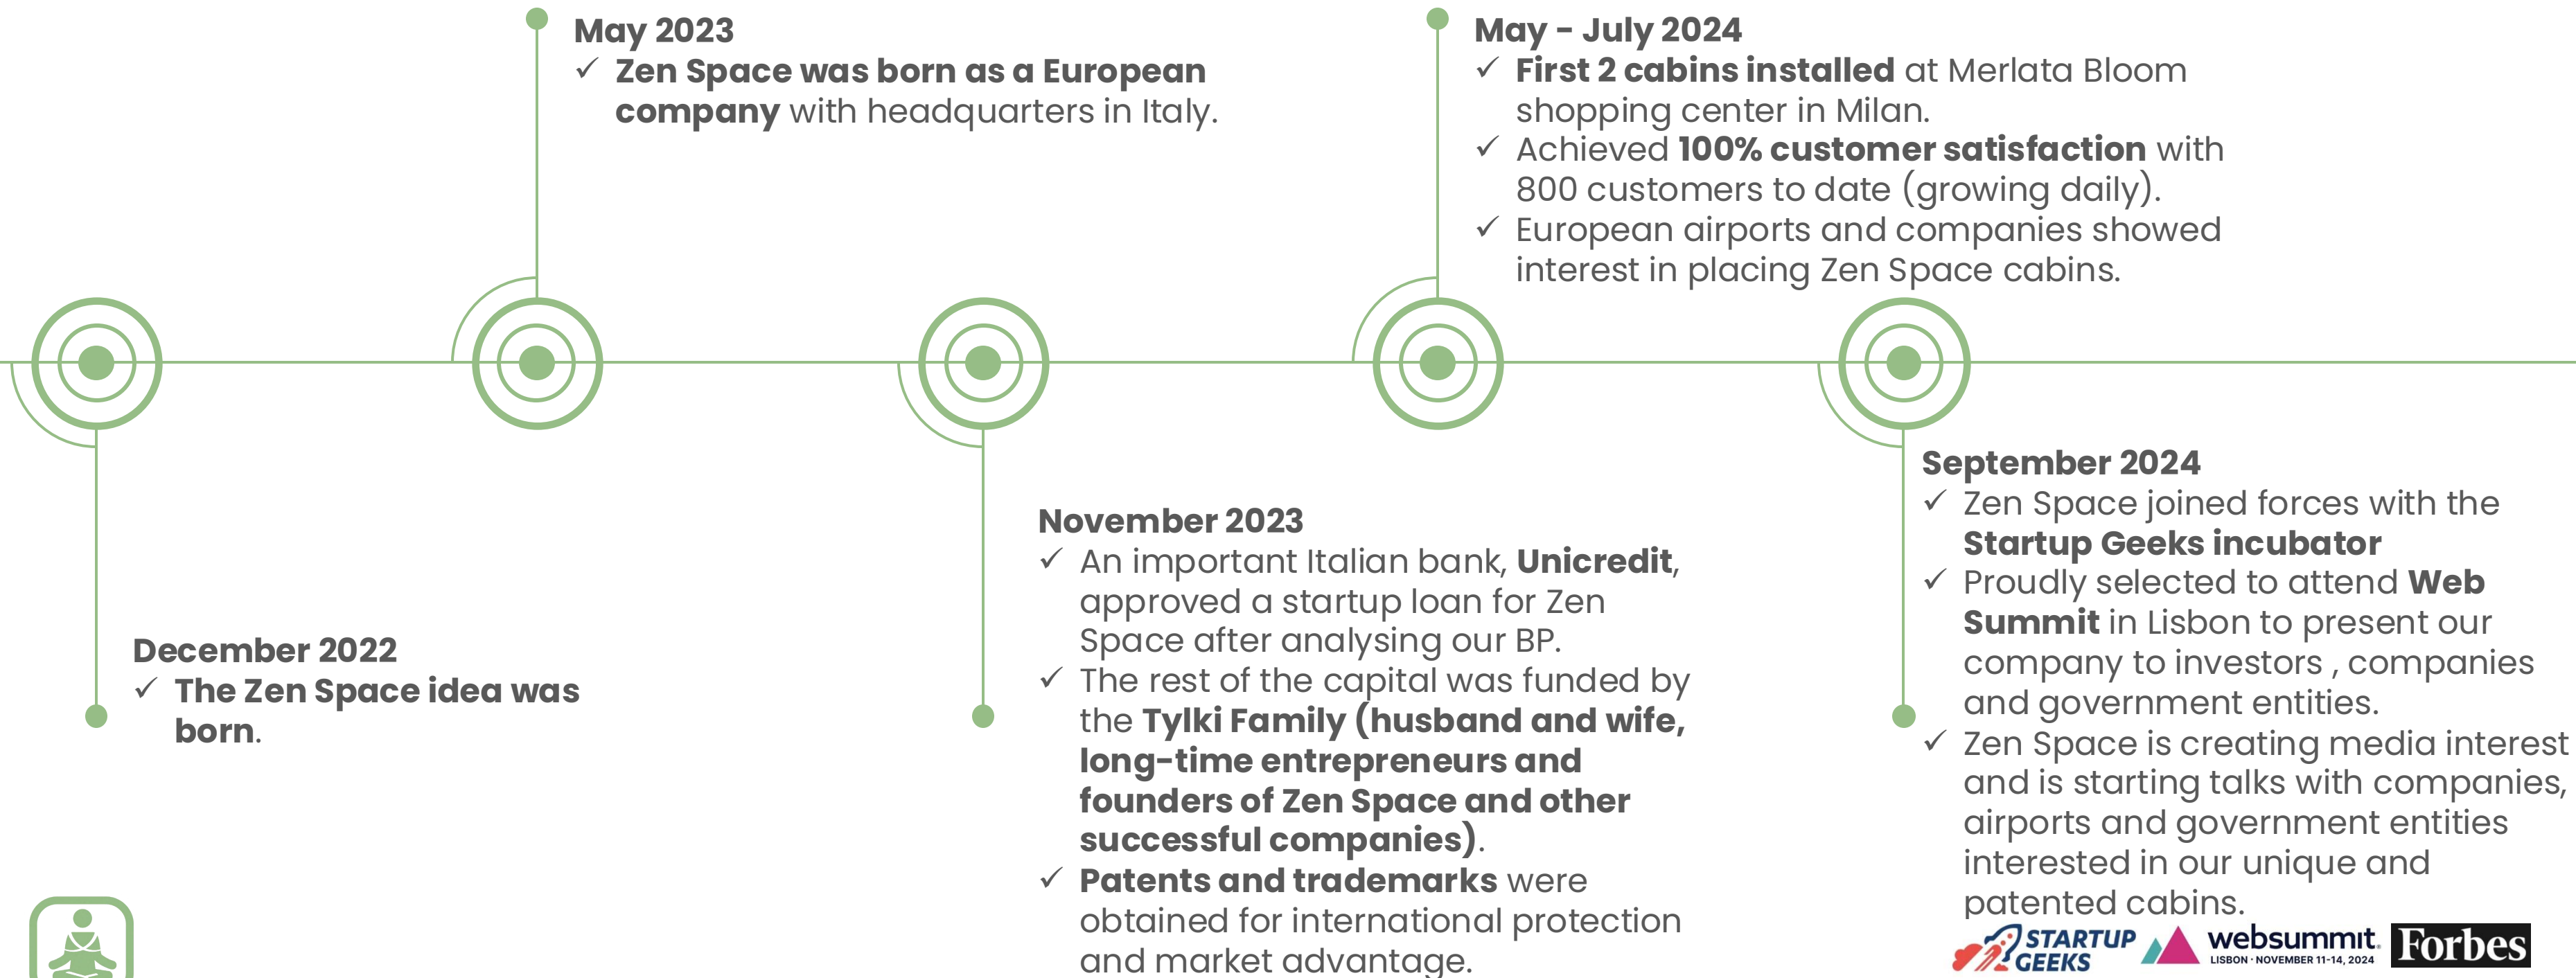

The Beauty and Wellness industry, AI and Internet of Things, Social Commerce are the main global economy Mega Trends. Our Zen Space business model embraces these sectors from the start, will benefit hand by hand with this growth-trends and **we invite the best airports to partner with us and benefit as well.**

These are only 5 of the many reasons why our Zen Space cabins will benefit your airport.

Zen Space Milestones and Growth
